Ishaan Sinha – PES2UG23CS921

Tanishq Raj -PES2UG23CS642

1. Introduction

This document details the test cases for the Charity Event Fundraiser Tracking System v1.0. It maps to the SRS and STP, verifying that all functional, non-functional, and security requirements are covered through manual and automated testing.

2. Test Case Format

Each test case includes: Test Case ID, Test Scenario/Description, Preconditions, Test Steps/Input Data, Expected Results, and Postconditions/Remarks.

3.1 Event Management Module

Test Case ID	Test Scenario / Description	Preconditions	Test Steps / Input Data	Expected Result	Postconditions / Remarks
TC-Event-01	Create fundraising event	Organizer logged in successfully	1. Navigate to Create Event 2. Enter details: 'Clean Water Drive', goal ₹50,000 3. Click Create	Event created and listed in dashboard with correct details	Event visible in organizer dashboard
TC-Event-02	Edit/Delete event before closing	Organizer logged in; event exists	1. Select existing event 2. Edit	Updated details saved; deleted	Deletion disabled if pledges exist

			description or goal 3. Click Update 4. Optionally delete event	event removed	
TC-Event-03	Close fundraising event	Event has active pledges	1. Open event details 2. Click Close Event	Event marked 'Closed'; pledge form disabled	Event locked from further pledges

3.2 Donor Pledge Module

Test Case ID	Test Scenario / Description	Preconditions	Test Steps / Input Data	Expected Result	Postconditions / Remarks
TC-Pledge-01	Submit donor pledge successfully	Event open for pledges	1. Navigate to pledge page 2. Enter donor name 'Amit', amount ₹1000 3. Click Submit	Success message: 'Thank you for your pledge'	Pledge stored in DB, reflected in dashboard
TC-Pledge-02	Validate incorrect pledge data	Event active	1. Leave amount blank or enter ₹0 2. Click Submit	Error: 'Invalid pledge amount'	No entry created in database
TC-Pledge-03	Verify real-time progress update after pledge	Event target defined	1. Submit valid pledge 2. Observe dashboard	Progress bar increases accurately	Real-time update visible to all users

3.3 Progress Tracking Module

Test Case ID	Test Scenario / Description	Preconditions	Test Steps / Input Data	Expected Result	Postconditions / Remarks
TC-Track-01	Aggregate total pledges for event	Multiple pledges exist	1. View event dashboard 2. Check total amount	Total matches sum of donor pledges	Verified with DB totals
TC-Track-02	Display progress bar with % completion	Event has goal and pledges	1. Open event dashboard	Progress bar displays correct percentage raised	Auto-updates upon new pledges
TC-Track-03	Generate visual reports	Organizer logged in	1. Navigate to Reports tab 2. Select event 3. Click Generate Report	Chart displayed and downloadable in CSV/PDF	File saved successfully

3.4 User Role & Access Control

Test Case ID	Test Scenario / Description	Preconditions	Test Steps / Input Data	Expected Result	Postconditions / Remarks
TC-Org-Login-010	Organizer login validation	Organizer account exists	1. Enter valid credentials 2. Click Login	Redirected to organizer dashboard	Session active
TC-Password-011	Change/reset password	User logged in	1. Go to settings 2. Enter new password (≥8 chars, 1	Password updated successfully	Confirmation email sent

special)					
TC-Revoked-012	Admin revokes user access	Admin logged in	1. Open user list 2. Click Revoke Access for user	User blocked immediately	Attempted login shows 'Access Denied'

3.5 Reports & Analytics

Test Case ID	Test Scenario / Description	Preconditions	Test Steps / Input Data	Expected Result	Postconditions / Remarks
TC-LIST-013	Export donor pledge list	Event has pledges	1. Click Export Pledge List 2. Choose CSV/PDF	File generated with accurate data	File downloadable
TC-Report-014	Generate Top Donors report	Event has >1 donor	1. Click Top Donors	Report sorted by highest amount	Visible on dashboard
TC-SUM-015	Generate event summary report	Event closed	1. Click Summary Report	Total collected and % of goal shown	Report archived

4. Non-Functional Test Cases

Test Case ID	Test Scenario / Description	Preconditions	Test Steps / Input Data	Expected Result	Postconditions / Remarks
TC-Avail-01	Verify system uptime 99.5%	Monitoring tool configured	Simulate uptime monitoring over 30 days	Uptime ≥ 99.5%	SLA compliance met
TC-Perf-01	Verify pledge	Normal load (≤1000	Perform pledge	Response time ≤ 2	Meets performance

	submission ≤ 2s	users)	submission test	seconds	requirement
TC-Person-01	Validate scalability under 10,000 users	Load test with JMeter	Simulate concurrent pledges	Avg. response ≤ 3s	No crashes under load
TC-BKP-01	Verify daily backup process	Cron job configured	Wait for scheduled backup	Backup file generated and stored	Backup timestamp verified
TC-UX-01	Verify responsive UI on multiple devices	Web app deployed	Open app on desktop, tablet, mobile	Layout adjusts properly	No functionality loss

5. Security Test Cases

Test Case ID	Test Scenario / Description	Preconditions	Test Steps / Input Data	Expected Result	Postconditions / Remarks
TC-SR-Enc-01	Verify encryption of sensitive data	DB and APIs deployed	1. Check network packets 2. Verify DB storage	All data encrypted (TLS + AES)	Passes security audit
TC-SR-MFA-01	Validate multi-factor authentication	Organizer/Admin login	Attempt login → Enter OTP	Login allowed only after MFA	MFA enforced
TC-SR-Log-01	Verify audit logging	Admin role	1. Perform login/logout actions	Audit log generated	Logs accessible by admin
TC-SR-Lock-01	Account lock after 5 failed attempts	Valid user exists	Attempt wrong password 5×	Account locked; email alert sent	Requires admin reset
TC-SR-Conn-01	Enforce HTTPS/TLS	App deployed	Access site via HTTP	Redirects to HTTPS	TLS active, no plain HTTP

7. Approvals

Role	Name	Signature / Date
QA Lead	Sujoy Sen	Sujoy Sen
Test Engineer	Ishaan Sinha	Ishaan Sinha
Dev Lead	Ishika Raj	Ishika Raj
Product Owner	Tanishq Raj	Tanishq Raj
